EDUCATION

Manipal Institute of Technology
Master of Computer Applications (MCA)

Udupi, India
2023 – 2025

Vivekananda College
Bachelor of Computer Applications (BCA)

Puttur, India
2020 – 2023

EXPERIENCE

App Developer

Zoha Pvt Ltd.

Nov. 2025 – Mar. 2026

Mangalore (Remote)

- Developed a real-world mobile application with practical business use cases.
- Designed and implemented a complete, user-friendly, and responsive user interface.
- Utilized Flutter (Dart), Firebase (Authentication, Firestore, Cloud Messaging), and Figma.

Web Developer Intern

GAOTek Inc.

Aug. 2025 – Feb. 2026

US (Remote)

- Contributed to the development and customization of WordPress websites by implementing responsive UI components and plugins.
- Collaborated with the team to optimize website performance and SEO to improve search engine visibility and user engagement.
- Successfully deployed live projects: Environmental Test Construct and Enviro Test Health.

Full Stack Android Developer Intern

CleanCode

Feb. 2025 – July 2025

Mangalore (Remote)

- Developed a comprehensive Flutter mobile application featuring user registration, event booking, and digital ticketing system serving 2,000+ active users.
- Implemented real-time notification system using Firebase Cloud Messaging and QR code-based digital ticketing.
- Designed and deployed secure authentication system with OTP verification and role-based access control.

Research and Development Intern

Coding Jr

Feb. 2025 – May 2025

Bangalore (Remote)

- Conducted research on artificial intelligence solutions and developed a prototype AI Copilot using the LLAMA language model.
- Created responsive user interfaces using HTML5 and CSS3 for testing and demonstrations.
- Successfully delivered project milestones and received positive performance recommendations.

PROJECTS

Human Emotion Text Analysis | *Python, Scikit-Learn, NLTK, Pandas, Kaggle Dataset*

- Developed a machine learning model to classify human emotions from text using Natural Language Processing (NLP) techniques.
- Leveraged the NLTK library for text preprocessing and Scikit-Learn for training sentiment classification models on data sourced from Kaggle.
- Implemented data cleaning and feature extraction to accurately analyze emotional patterns in textual data.

Flutter REST API Integration | *Flutter, Dart, REST API, JSON, Provider*

- Developed a mobile application demonstrating seamless integration of RESTful APIs to fetch and manage dynamic data.
- Implemented efficient state management using the Provider package and utilized JSON serialization for data handling.
- Focused on creating a responsive and modular architecture to improve app scalability and performance.

TECHNICAL SKILLS

Languages: C/C++, Java, Python, SQL (Postgres), Dart, JavaScript, PHP, HTML/CSS

Core Competencies: Data Structures and Algorithms (DSA), Machine Learning (ML), UI/UX Design, TensorFlow

Frameworks/Tools: Flutter, Firebase, MERN Stack, Material UI, Docker, Git, JIRA, Figma

Developer Tools: Google Cloud Platform, AWS, Jupyter, Anaconda Navigator, Eclipse

Libraries: Riverpod, Provider, React Router, Express.js, Scikit-Learn, NLTK, pandas, NumPy
